FREEMAN PHOTOGRAPHY

STUDENT PRIVACY INFORMATION SHEET

Your Children. Their Memories. Our Responsibility.

At Freeman Photography, protecting student photographs and respecting family privacy are essential responsibilities. We are a locally owned Houston-area photography company, and we want schools and parents to understand how we handle student images and information.

WHO IS RESPONSIBLE?

Freeman Photography is locally owned and operated. Our team works directly with school administrators and families to address questions and concerns.

WHO CAN VIEW MY CHILD'S PHOTOGRAPHS?

We use private online galleries for school photography orders. Access is managed through gallery credentials and our photography platform. Families should keep their gallery access information private.

DO YOU SELL STUDENT DATA OR IMAGES?

Our commitment is not to sell student photographs or personal information to data brokers, advertisers, or unrelated third parties. Authorized photography platforms, printing laboratories, and service providers may process information needed to deliver our services.

WHAT INFORMATION IS USED?

Schools may provide limited student information needed to match images to students, support yearbooks, administer galleries, communicate with families, and fulfill orders.

WHAT ABOUT CLASS, GROUP, AND TEAM PHOTOS?

We offer these photographs as physical prints rather than digital downloads, reflecting additional privacy considerations when multiple children appear in one image.

HOW ARE IMAGES STORED AND PROTECTED?

We use photography, storage, and production systems with access controls and operational safeguards. Images may be retained in archives to support future family requests and school needs; retention and deletion requests are reviewed individually.

WHAT ABOUT AI AND IMAGE IDENTIFICATION?

Technology may assist with image processing or identifying students. Any such use should be limited to authorized photography operations. We do not authorize unrelated third-party AI model training using student photographs.

HOW CAN I ASK A QUESTION OR REPORT A CONCERN?

Contact Freeman Photography directly through the contact information provided by your school or our official business channels. We will review privacy, gallery access, correction, and deletion questions in coordination with applicable school requirements.

Our promise: We treat student images as a responsibility, not simply a product. We believe in transparency, personal accountability, and earning your trust.
